## JUNE 2011

Well, my hat is off to Terry White and George Matto and their fantastic regional team.

I do believe that this was THE BEST REGIONAL YET!!!! Many people not knowing me told me how wonderful this regional was including the friendliness, hospitality, food, mart room and the list went on.

I understand that 'National' will be held in Pasadena next year. Wow this will be close.

Keep on the lookout for information on the Fall Multi-chapter that will be held in the Bremerton area.

Well, my message is short and sweet this month. Would love to hear your feedback on the regional, too! Have a great month and if someone is going to the National this summer, take some pictures and let's do a show and tell!

Sincerely,

Mary Gonzalez

President, Ch. 31

**The Japanese Automon began about 5000 years ago as a complex wooden puppet appearing once a year at festivals. The clock mechanism was introduced in Japan during the late 1600's. Soon after the clock mechanisms were integrated into the puppets allowing precise movements. The complex mechanical puppets can change shapes, for example from man to animal or spirit, or perform precise human motions such as serving tea to a guest seated across the table and return.**

**This automan is the most sophisticated in Japan, and invented by the founder of Mitsubishi Inc. He is also the premier clock-smith in the 19th century.**
